

12-core fiber optic patch panel available for immediate shipment

Overview

Compact 12-core fiber optic patch panel for FTTH & telecom networks. Features 2U height, Corning-compatible fibers, and modular splice trays. These panels enable efficient cable management, simplify network maintenance, and support reliable, high-speed data transmission across enterprise. Indoor wall type fiber optic distribution frame can manage both single fiber and ribbon & bundle fiber cables for indoor using. ODF-IW12B consists of cold-roll steel box, splicing unit, distribution unit and panel. Its special design ensures the excess fiber cords and pigtails in good order, no. We are a 12 Core Duplex Ports LC Terminal Mounting Housing Fiber Patch Panel Manufacturer. Our factory approved ISO9001:2015, and we have UL, CE, FCC, ROHS, CCC, CPR certificates. Our Optical Fiber Cable quality is excellent. The 12 port universal type optical fiber box can realize the functions of the termination, fusion of the optical cable, the fixing and grounding of the optical cable, as well as the protection of the optical core and pigtail. It can be installed in a standard 19" cabinet. It is used for direct connection and branch connection of indoor optical fiber, and plays the role of storage of tail fiber disk and protection of joint.
