

12-core terminal box sc

Overview

The GP-T408-12SC is a compact indoor optical distribution unit for FTTx networks, supporting 16 fiber splices, 12 SC adapters, and 1:4/1:8 micro splitters for efficient management. The distribution box is able to hold up to 12 subscribers. Housed in a white & black plastic shell, it offers excellent durability while maintaining a lightweight and cost-effective design. It integrates fiber splicing, optical signal splitting, termination and cable management into a compact enclosure for indoor and outdoor applications. How can I pay for my order?

We accept T/T. By continuing, I agree to the and authorize you to charge my payment method at the prices, frequency and dates listed on this page until my order is fulfilled or I cancel, if permitted.
