

China-Africa Telecom Optical Cable Laying Project

Overview

Circling the African continent and connecting intercontinental nodes across Europe, Asia, and beyond, the 2Africa will further expand CMI's global submarine cable layout and international connectivity resources, providing a robust digital infrastructure to accelerate the digital. Circling the African continent and connecting intercontinental nodes across Europe, Asia, and beyond, the 2Africa will further expand CMI's global submarine cable layout and international connectivity resources, providing a robust digital infrastructure to accelerate the digital. The launch of 2Africa enables us to offer our customers seamless connection between Africa and Europe, together with our SEA-ME-WE 5 and AAE-1 subsea cable resources to further extend to Asia, which is an important milestone of our global development strategy,” said Jessica Gu, Director & Chief. The 2Africa project is a collaboration between China Mobile and several international telecom operators, including Meta (formerly Facebook), Vodafone, Orange, Center3 (formerly STC), Bayobab (formerly MTN), WIOCC, and Telecom Egypt. This cross-continental submarine optical cable project covers. 2Africa is an international submarine telecommunications cable that interconnects Africa and further connects Asia and Europe. It passes from Europe through the Atlantic Ocean and Indian Ocean, and then back into Europe via the Red Sea and the Mediterranean Sea. It is one of the first submarine. China Mobile International (CMI), along with seven global partners including Bayobab, center3, Meta, Orange, Telecom Egypt, Vodafone Group and WIOCC, has jointly completed the core 2Africa Submarine Cable Infrastructure (2Africa). Circling the African continent and connecting intercontinental nodes. The initiative aligns with Kenya's Digital Superhighway and Creative Pillar agenda, which aims to deploy 100,000 kilometers of national fibre optic cable, establish 25,000 public Wi-Fi hotspots, build ICT hubs in every ward, and expand ac...
