Power Distribution Boxes | Electrical Power Distros | Rubber Box

For over 30 years Rubber Box has been a market leader and well-respected name within the industry. Supplying electric power distribution boxes and equipment to some of the largest venues and events,

Residual Current Devices (RCDs)

ABB's smart switchgear for this segment integrates intelligent digital technologies to improve control, monitoring, and management of electrical distribution systems.

Distribution board

Overview Theatre lighting North America United Kingdom Manufacturer differences Location and designation

In a theatre, a specialty panel known as a dimmer rack is used to feed stage lighting instruments. A U.S. style dimmer rack has a 208Y/120 volt 3-phase feed. Instead of just circuit breakers, the rack has a solid state electronic dimmer with its own circuit breaker for each stage circuit. This is known as a dimmer-per-circuit arrangement. The dimmers are equally divided across the three incoming phases. In a 96 dimmer rack, there are 32 dimmers on phase A, 32 dimmers on phase B, and 32 on phase C to spread
