

Eight ports of the fiber optic terminal box

Overview

Technical Specifications Capacity: 8-fiber termination points Cable Entry: 3 inlet ports (6-10mm), 8 outlet ports (3-5mm) Components: Splice trays, SC/APC adapters, PLC splitter ready Material: Durable ABS plastic construction Applications Perfect for residential fiber. Technical Specifications Capacity: 8-fiber termination points Cable Entry: 3 inlet ports (6-10mm), 8 outlet ports (3-5mm) Components: Splice trays, SC/APC adapters, PLC splitter ready Material: Durable ABS plastic construction Applications Perfect for residential fiber. The optical fiber terminal box is the terminal joint of an optical cable. One end of it is an optical cable and the other end is a pigtail. Its. The 8 ports metal fiber terminal box is similar to the fiber optic patch panel in appearance and function, which designed to connect optical fiber cable and pigtail within building entrance locations and other indoor wall mounted environments. It can be installed on walls or utility poles, and its waterproof cover ensures maximum moisture protection, ensuring optimal performance in any weather conditions. This distribution box can connect. Efficient Ports: Includes 1 port for distribution cable and 8 ports for drop cables (diameter: 4-7mm). You are browsing HOLIGHT's official website, feel free to contact us, please click the icon below! YOU ARE HERE! ASK FOR QUOTE NOW! The HTB8016B 8 Ports Fiber Optic Terminal Box serves as a robust. This termination box combines affordability, functionality, and ease of installation, making it an ideal choice for widespread fiber network deployment. Meanwhile, it provides solid.
