

Fiber Fusion Tray Product Details Introduction

Overview

The 48-Fiber transparent fusion splice tray is ideal for fusion splicing single fiber. The see through cover and mylar insert enable easy viewing when visual fault locator (VFL) testing and verification is performed to ensure cable continuity and determine pass or failure of splicing. The fiber optical splice tray for FHD® (FS High Density) series rack mount enclosure shall house and protect fiber optic splices, guarantee proper fiber cable management and bend radius control, and allow for clear labeling and logical organization of the fiber optic splices. The. Schneider Electric aims to achieve Net Zero status by 2050 through supply chain partnerships, lower impact materials, and circularity via our ongoing “Use Better, Use Longer, Use Again” campaign to extend product lifetimes and recyclability. It is mainly used for management of cable junction box and wall mounted junction box. The splicing tray extends the function of optical fiber splicing and provides splicing position for. 6 Fibers Fusion Splice Tray, Plastic, 3.
