

Fiber optic cable exit pulley

Overview

Essential for fiber Optic and coaxial cable pulling these swivels have a break load ranging from 150 - 1,800 lbs and are designed to separate at $\pm 10\%$ of their rated break load. If the Load Rating is exceeded the internal break pin fractures, the swivel separates and the cable. The eCapstan is a quiet battery powered pulling fiber optic capstan that can be used all day on one charge. Variable speed with push button force selection, this tool can be used inside having no emissions. The diameter of the pulley is 4.4 inches, capable of accommodating over 33 Ethernet cables with a diameter of 1/4 inch. 82. The GMP SideWinder Trailer-Mounted Fiber Optic Puller SideWinder Fiber Optic Puller has been designed to exceed the requirements of installing underground telecommunication cables, employing a 32 in. With a maintained minimum of a 2-inch bed radius, your fittings are made to better protect your cable from being bent or damaged. These routing system fittings are.
