

Fiber optic splice 288 junction box

Overview

This rugged enclosure protects up to 288 single-fiber or 48 ribbon splices, from as many as 12 cables. The design of the OSE is optimized for quick reentry and graceful system expansion, allowing cables to be easily added even after the initial installation of the unit. Overlap structure in splicing tray for easy installation. It is waterproof and dust proof and suitable for outdoor aerial hanged, pole mounted, wall mounted, duct or buried application. Working temperature $-35^{\circ}\text{C} \sim 70^{\circ}\text{C}$, cold and heat resistance, electrical. 1 oval port and 16 round ports, 12pcs 24F splice tray, Max 288 Fibers. Note that this product has a minimum order quantity (50pcs). The 288 core 17 port dome fiber splice closure with splitter slot is a high-capacity outdoor. The SC-H 288 Core Fiber Optic Splice Closure is an advanced solution cater to the diverse requirements of FTTA. This high-capacity closure facilitates the secure introduction, anchoring, and protection of cables while providing termination capabilities for household cables.
