

# Four-Power Distribution Box

## Overview

This compact yet robust electrical enclosure features four strategically positioned outlets or connection points, making it an ideal solution for residential, commercial, and industrial applications where space optimization and reliable power distribution are paramount. The 4 hole distribution box represents a fundamental component in modern electrical infrastructure, designed to efficiently distribute power from a single source to multiple circuits or devices. Price and other details may vary based on product size and color. It comes with a 5 metre cable with a 110 volt socket plug that can be used in conjunction with. Tinned copper or aluminum block allows for copper or aluminum conductor direct connections, or using ferrule Screw retaining cover is hinged and removable Design allows for visual inspection of conductor and confirmation of connection Modular snap-together blocks for building multi-pole power.
