

HS coding for optical cable assemblies

Overview

Fiber Optic Cables: Once optical fibers are assembled into cables, possibly with connectors, they fall under HS Code 8544. This code covers insulated electric conductors, in which optical fibers serve the purpose of transmitting light signals for communication. The Harmonized System (HS) is an internationally standardized system of names and numbers for classifying traded products. Key updates include GCC 12-digit codes from Jan 1, US HTS mandates post-Aug 2025, and EU CN revisions. Using a same classification system simplifies the customs process regardless of the country, and helps customs authority to determine appropriate tariff rates. Most. By clicking "Find Related HS Code" button above, you can find 6 digits universal HS Code (which is valid for almost all countries in the world) and declarable codes for EU, UK, USA, Japan, China, India and Turkey (e. enamelled or anodised" wire, cable "incl.
