

# How much does a 10G optical port switch cost

## Overview

The average 10G SFP price typically falls between \$10 and \$300, depending on the module type, transmission distance, and brand. For most standard enterprise and data center deployments, the practical buying range is much narrower—and far more predictable—than many price lists. The price of a 10G SFP+ module typically ranges from low double digits to several hundred dollars, and in some cases even higher. If you search for “ 10g sfp. For a low price, quick and easy switch from 100Mb to 1000Mb this is as good as it gets. There is nothing to read, confi. see all reviews Nice Switch! Upgrade your network with top 10GB switches like NETGEAR 8 Port and Cisco WS-C4500X-24X-ES.
