

Huawei PoE Network Switch

Overview

The Huawei S5731-S48P4X is a PoE (Power over Ethernet) switch featuring 48 10/100/1000BASE-T ports and 4 10GE SFP+ ports. It supports two power module slots, each accommodating either a 1000 W or 600 W PoE power module, enabling flexible power configurations to meet various. Huawei's comprehensive portfolio of products and solutions enables you to realize smooth digital transformation and rapid growth of virtualization, Big Data, and cloud services. Huawei switches already help customers achieve success in industries such as finance, Internet, retail, education. High-power PoE, multigigabit speed, and AI-driven operations for smart campuses, IoT corridors, and Wi-Fi 6/6E/7 edge networks. How to enable and disable PoE on Huawei S series switches?

Get the Help and Supports! This help center can answer your questions about customer services, products tech support, network issues.
