

K16 comes with a built-in optical module

Overview

The K16 is based on the K3's design, layout, and function using a gas piston and rotating bolt. It is fed through a STANAG M13 disintegrating belt link and cannot accept a magazine. The cross-bolt type safety is the same as K3/Minimi, and the receiver is made from steel press with an aluminum alloy feed cover. Although similar in design, the receiver and other important parts are enlarged to accom.

OverviewS&T Motiv K16, formerly known as S&T Motiv K12, is a manufactured by to replace the for the. The XK12 was fi.
