

On-site power distribution box rain shelter

Overview

(1) Waterproof distribution box engineered for harsh outdoor and industrial environments, providing IP65-IP68 sealing against dust, rain, and UV. It must protect people, protect equipment, reduce installation chaos, and make emergency control simple. This guide highlights five top options that balance durability, versatility, and safety features. Each product is evaluated based on inlet/outlet. Leviton's The Box™ is rated 50A 125/250 Volt with six (6) weather-resistant NEMA 5-20R straight blade single GFCI protected receptacles, one (1) NEMA L6-30R locking non-GFCI protected receptacle, one (1) non-GFCI protected 50A 125/250V California Style power inlet (Leviton # CS6375) and one (1). Temporary power distribution boxes provide a safer way to manage power while keeping your workspace tidy. These versatile units work great for construction sites, entertainment events, and disaster recovery operations. They handle everything from simple 120/240V single-phase loads to powerful.
