

Outdoor Tri-Network Fiber Optic Distribution Box

Overview

Schnell outdoor fiber distribution box offers watertight and dustproof cable management for external FTTH environments. Designed for both wall and pole mounting, it supports up to 24 SC simplex or 48 LC duplex ports, with optional space for PLC splitters and splice trays. With the global proliferation of Fiber to the Home (FTTH) networks, the "last mile" of fiber optic cabling has become crucial. As a key node connecting the feeder cable and the drop cable, the Outdoor Termination Box (OTB) plays a central role in protecting fiber optic splices and distributing. Our Outdoor Fiber Termination Boxes are specially designed to house and protect the various amounts of simplex or duplex adapters that you need for FTTH, FTTB, or FTTC. (LC OS2 NO Pigtailed) This product has sustainability features recognized by trusted certifications. OTRANS strives to provide you with professional, reliable. A fiber optic distribution box — also known as an FDB or NAP (Network Access Point) — is a mid-span enclosure that distributes fibers from a feeder cable to individual drop cables serving subscribers or building floors.
