

Palau pigtail cable cost

Overview

This project, valued at approximately US\$30 million, will ensure reliable, secure digital connectivity in Palau. The Palau spur cable will be the first project under the Trilateral Partnership for Infrastructure Investment in the Indo-Pacific between Australia, Japan and the U.S. Palau Cable 2 (PC2) is a subsea cable of approximately 110km to connect the Palau Republic with a large-capacity submarine optical cable that connects Southeast Asia and the U.S. mainland (Echo subsea cable system). PC2 adopts the latest optical wavelength multiplexing transmission system. Learn about Palau Spur subsea cable 2 (PC2), a certified infrastructure project by the Blue Dot Network, showcasing quality, sustainability, and international standards. The core product offered by BSCC on the cable is leased capacity between the BSCC Capacity Access Point (CAP) at Airai (CAP-A), the Cable Landing Station (CLS) at Ngeremlengui (CAP-N), Palau, and GTA Piti in Guam (CAP-G). The minimum capacity offered is 50 Mbit / sec. Leases are available on. 6Wresearch actively monitors the Palau Fiber Optics Cable Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and forecast outlook. Our insights help businesses to make data-backed strategic decisions with ongoing market dynamics. Australia is partnering with Japan and the United States to finance an undersea fibre optic cable to the Republic of Palau.
