

Price of lighting circuits for cable trays

Overview

The basic cost to Install a Lighting Circuit is \$871 - \$1,066 per circuit in May 2026, but can vary significantly with site conditions and options. Use our free HOMEWYSE CALCULATOR to estimate fair costs for your SPECIFIC project. Cable tray lighting is an essential component in industrial, commercial, and institutional facilities, providing targeted illumination along cable management systems. Cable electrical trays are a track that allows cables and wires to be routed throughout a structure in an easily maintenance way. They can be placed on a wall or hanging from the ceiling. For up to 75 ft of wiring and 3 junction box locations and 1 switch. Install and connect new breaker in existing electrical panel. All illustrations, descriptions and technical information included in this document are provided as indications and can cable trays are equivalent. The mechanical and electrical characteristics, tests, certifications, overall quality management, recommendations mentioned. The selection of the method of carrying wires is based on two points: the cost of the components and the cost of work.
