

Price of whole-house fiber optic installation panels

Overview

Fiber optic cable installation costs between \$1,500 and \$7,000 for your home, with prices varying by cable length and installation method. The installation type you choose and the layout of your property determine the total labor and materials needed for your project. You should account for permit. The Fiber Broadband Association has partnered with Cartesian to research the cost of deploying fiber and provide insight on how these costs are evolving over time. In preparing this second edition of the Fiber Deployment Cost report, Cartesian gathered inputs from a wide variety of firms building. Typically, per drop fiber cabling prices range from \$250 - \$1000 per drop depending on the type of fiber (OM2, OM3, OM4, or OM5), multi or single mode, PVC or plenum, average drop length, and also the number of fibers in each cable. In this article, Fibconet will explore the factors influencing the cost, the average price range, installation costs, and tips for saving money when purchasing fiber optic.
