

Single-mode fiber optic quad-core gyxtw-4b1

Overview

Gyxtw-4b1 4-core optical fiber cable is a type of outdoor single-mode optical fiber. It adopts a central bundle tube structure design and has 4 built-in standard G. It is suitable for long-distance, high-bandwidth optical signal transmission. A PSP layer is wrapped longitudinally around the tube, while water-blocking materials fill the gaps to ensure compact structure and reliable water. Supplier highlights: This supplier is both a manufacturer and trader, offers full customization services, mainly exports to South Africa, Mexico, and Ecuador, and achieves a 95. 4 core single mode fiber optic cable GYXTW-4B1 Outdoor single mode 4 6 8 12 core optic. Single-mode fiber (SMF) cables are optical fibers designed to carry a single ray of light (mode) over long distances with minimal signal attenuation. The cable adopts a loose tube design, ensuring waterproofing and reliable performance. 25 years of best-selling fiber optic cable recommendations! 4-core optical cable gyxtw-4b1 four-core outdoor single-mode optical fiber, telecommunications grade armored and durable, the first choice for construction! 25 years of best-selling fiber optic cable recommendations! 4-core optical cable. FIBERHOME Central Tube Light Outdoor Armored Fiber Optic Cable GYXTW-4B1.
