

TP Industrial Switch Optical Module

Overview

The TP-LINK Optical Communication Module TL-SM312LS-20KM is an industrial-grade fiber optic transceiver designed for high-performance data communication in demanding environments. They have 4 ports in total and are thus ideally suited for use in cubicles with 1 or 2 connected Industrial Ethernet devices. More information will be provided soon. Chat with supplier now for more details. com FS United StatesFREE SHIPPING on Orders Over US\$79 Contact Us United States / \$ USD Sign in Sign up Search Recent Searches. TP-LINK's TL-SM321B-2 and TL-SM321A-2 is designed to work in a pair to create an on-site gigabit fiber communication up to 2km (2,000 meters). With one single-mode fiber, the pair of modules can create a full-duplex gigabit path between your switches, storage devices, and server. The TP-LINK's. SIEMENS SIMATIC NET OSM TP22 Optical Switch Module with two LWL Ports 100 Mbit/s, two RJ45 Ports 10/100 Mbit/s and 4 digital inputs redundant 24 V DC infeed, Signaling contact Integrated Redundancy manager with network management.

Article Content

TP-LINK Omada Gigabit SFP Module, 1000Base-SX Multi-Mode

The SM311 series Fiber Module Cards are introduced for extending transfer distance. Attached to our managed/smart switches, they can extend the distance to several kilometers even tens of kilometers

SIEMENS 6GK1105-2AE00 Optical Switch Module - TP22

This high-performance optical switch module from SIEMENS is designed for industrial control systems, offering enhanced reliability and efficiency in data transmission.
