

The First AI Server

Overview

SAN FRANCISCO & TEL AVIV, Israel-- (BUSINESS WIRE)-- Majestic Labs today unveiled Prometheus, the first AI server designed from the ground up to tackle the memory wall: the most critical obstacle to the advancement and deployment of AI models. Majestic's memory-first AI servers combine efficiency, ease of programming, and a groundbreaking memory system to collapse racks of standard servers into a single Majestic server

SAN FRANCISCO & TEL AVIV, Israel-- (BUSINESS WIRE)-- Majestic Labs today unveiled Prometheus, the first AI server. Majestic Labs Announces Prometheus: The First AI Server Purpose-Built to Break the Memory Wall Majestic's memory-first AI servers combine efficiency, ease of programming, and a groundbreaking memory system to collapse racks of standard servers into a single Majestic server

Majestic Labs today. On April 28, 2026, an Israeli-American startup few outside the chip industry had heard of stepped onto the AI infrastructure stage with a claim that sounded almost absurd: a single rack-mount server packing 128 terabytes of shared memory, roughly 1,000 times the high-bandwidth memory available to a. Majestic Labs AI, founded by Ofer Shacham, Masumi Reynders, and Sha Rabii, has developed a server architecture built around what it describes as a memory-first design. The company, which raised \$100 million in November from investors including Bow Wave Capital, Lux Capital, and Grove, is targeting. Aiming for mass production by 2026, Apple pivots its R&D priorities toward artificial intelligence breakthroughs. A team of Apple engineers in Israel is leading the ambitious development of Apple's first server AI chip, according to a report by The Information. This chip is.

San Francisco — March 3rd, 2026 — MiTAC Computing, a leader in AI, High Performance Computing (HPC), and energy-efficient server solutions and a subsidiary of MiTAC Holdings Corporation (TSE:3706), today announced the launch and availability of the first Diamond Cooled AI servers.
