

Unloading cable trays at a construction site in the UAE

Overview

Shipments shall be hand unloaded unless provisions have been made with the cable tray manufacturer for forklift unloading. 2) Cable tray systems shall not be subjected to physical damage. Delta manufactures a complete range of cable management systems, including cable trays, ladders, trunking, and conduits, which we meticulously designed to organize and protect your cables. We optimize your electrical infrastructure so you can have resilient, high-capacity systems that ensure safe. In the UAE's demanding construction landscape, from Dubai's smart city developments to vast industrial zones in Abu Dhabi, a haphazard approach to cable management is a recipe for failure. A well-organized system using the right cable tray and accessories is the bedrock of operational safety. Unigroup offers a line-up of high-performance cable trays, Trunking and Channel Systems for all your cable routing requirements. Our cable tray systems are engineered for modern infrastructure, ensuring safe, organized, and efficient cable routing across commercial, industrial, and utility. The following are some common types of cable tray systems that you should consider for your property in the UAE. With this system, you get easy cable access along with excellent ventilation. It is mandatory that always a am uld obtain the NOC from DEWA prior to starting the work.
