

Western European High Voltage Small Busbar Custom Manufacturer

Overview

We flexibly manufacture suitable & safe busbars for your switchgear made of copper or aluminium. In addition to the realisation of complex shapes, we also take on the assembly work of the DC link rails. One of the signature products developed by Intercable Automotive Solutions are our custom made high-voltage busbars manufactured to client specifications. Busbars are essential components in electric vehicles (EVs), which are increasingly. The use of busbars for power transmission combines flexibility, durability and quick installation in a wide range of applications. With decades of experience and a deep understanding of conductive materials, we support. Electropak Ltd is a prominent AS9100 Rev D Busbar Manufacturer supplying custom busbars across Aerospace, Rail, Automotive and Electrical industries. For over a decade, we have been supporting Aerospace and wider transport manufacturers to realise viable electric powered travel as the world moves. H V Wooding is a well-established, industry-leading UK sub-contract manufacturer with over 50 years of experience in the production of high-specification components, including copper busbars, aluminium busbars, switchgear, core packs, and motor laminations. From prototype development to.
